LENLOK DIAL COMBINATION LOCKS

The Lenlok series of dial combination locks offers an advancement of looks and features to comparable products. Whether for metal, timber or acrylic doors, they provide a superior appearance in terms of aesthetics, have a larger and easier to read dial system and the availability of a dedicated master key only enhances the product's appeal. The models are all mechanical and offer various subtle functionalities for different locking purposes. They are suitable for lockers of all types in gyms, offices, factories and offer an easy to change combination code.
